Restaurant*, 725 Kapiolani Blvd.

“How to leverage AI in teaching and learning Chinese”

- Explore AI in Chinese teaching with an overview of current large language model features, including voice interaction.
- Discover how AI assists teachers in creating materials, assessing proficiency, and more.
- Learn how it acts as a tutor for students, offering personalized help and generating diverse exercises.
- Rethink assessment with innovative, critical thinking-stimulating methods.
- Bring your devices for a hands-on, synchronous experience!

There is no charge for CLEAH members, but seating is limited. [Register here without delay!](#)
